

Travel less, share more, with the new Conferencing Solutions from Lumos Networks.

As a business customer, you understand the need for **high standards, connections and convenience**. Now you can get affordable **Conferencing Solutions** from the company you have come to trust for connecting your employees and customers.

Why chose Lumos Networks Conferencing Solutions? Let's start with one company to manage all your communication needs. That means one call when you need changes on your account with the personalized service you have come to expect. Then add the benefits of our hosted Conferencing Solutions that are competitively priced with unlimited calling or web meetings to connect you to employees and customers through the most efficient and timely way to communicate. Face to face is always nice, but rarely possible.

With **Lumos Networks Conferencing Solutions**, you reduce travel expenses while empowering people to meet any time, from virtually anywhere. By combining Audio and Web Conferencing you get voice and web collaboration for a low monthly price that optimizes communications for your business.

Audio Conferencing

Meet-Me Conferencing keeps you connected and provides a full range of secure, high quality voice conferencing capabilities, from simple reservation-less conferencing to enterprise-class conference scheduling, hosting many callers. Look at these benefits:

- ❖ **Unlimited calls** with local access number – callers pay for long distance saving you money
- ❖ **HD Voice (G.722)** – High quality voice reduces meeting fatigue
- ❖ **Large Meeting Support** – up to 294 participants
- ❖ **Easier Scheduling** – Microsoft Outlook add-on provides integrated scheduling options
- ❖ **Web-based Moderator Client** – Moderators can login from anywhere to view and manage participants
- ❖ **Set meetings that are convenient to you** – no operator or reservation required
- ❖ **800 dial in number available** with competitive per minute rate
